

PRESS RELEASE

**MARZOCCHI POMPE AT BAUMA IN MUNICH
AT THE BAVARIAN EXHIBITION, THE LAUNCH OF THE NEW MARZOCCHI MOTOR PUMPS**

Bologna, April 07, 2025 - Marzocchi Pompe S.p.A. (EGM:MARP), a leading company in the design, manufacture and marketing of high-performance gear pumps and motors, will participate in Bauma, the world's largest exhibition of construction machinery and equipment, which will be held in Munich from April 7 to 13, 2025.

This edition is particularly prominent for Marzocchi Pompe, which will present the first prototypes of 6 new types of motor pumps. These are innovative solutions that combine high-performance pumps with motors developed in collaboration with three major international partners. The new products are designed to meet the growing demand for products with compact designs and versatile features, including the ability to implement various types of valves.

The new motor pumps are particularly suitable for construction equipment, the focus of interest at the show, and in general for those in the Mobile sector. These solutions are expected to be highly appreciated by customers who are increasingly demanding in terms of quality and technological innovation.

The Technical-Sales Team of Marzocchi Pompe will welcome customers, suppliers, partners and visitors at stand A4.414. The official launch of the new product line will then continue during the IVT Expo in Chicago in August, an event in which Marzocchi Pompe, together with its U.S. subsidiary, will participate for the first time.

Comment from CEO Gabriele Bonfiglioli: "It has been three years since the last Bauma: we are happy to be able to participate again and to continue to present new solutions that customers are asking us for, while also trying to anticipate market demand. Being the largest event in the furniture industry, it will be an important opportunity to compare ourselves with more important international players in the sector. We noticed a lot of interest regarding our products during the 2022 edition when we presented all-cast iron pumps and motors; we are convinced that this one will bring us great rewards as well."

The press release is available at www.marzocchipompe.com and on the authorised storage mechanism www.1info.it.

Marzocchi Pompe S.p.A.

Marzocchi Pompe is a leading company in the design, production and marketing of high-performance gear pumps and motors, which find application in various fields: industrial, mobile and automotive. Founded in 1949, it is controlled by the Marzocchi family, which holds the majority of shares and is represented in the company by Paolo Marzocchi, Chairman, and his son Carlo, Deputy Chairman. The shareholding structure also includes CEO Gabriele Bonfiglioli and three other managers. Production is carried out entirely in Italy at the two sites in Casalecchio di Reno (BO) and Zola Predosa (BO). Marzocchi Pompe is present in over 50 countries through an international distribution network.
