

PRESS RELEASE

MARZOCCHI POMPE AT 2023 HANNOVER MESSE EXHIBITION

Bologna, 14 April 2022 – **Marzocchi Pompe S.p.A.** (EGM:MARP), a leading company in the design, production and marketing of high-performance gear pumps and motors, announces that it **will take part in the "Hannover Messe" exhibition**, one of the most important international events in the field of components and industrial technology development, which will be held **from Monday 17th to Friday 21st April at the halls of the city's exhibition center bearing the same name.**

At **Booth H5.F18(7)** Marzocchi Pompe Sales Team will showcase to visitors and conference delegates the range of traditional aluminum gear pumps, which are particularly suitable for industrial automation, production machinery, renewable energy technologies and general industry supplies.

Special emphasis will be given to the pumps of the entire Elika family, which, thanks to their highly innovative features, can help increase efficiency and thus reduce operating costs in the systems in which they are installed.

Gabriele Bonfiglioli, CEO of Marzocchi Pompe, commented: *"We are thrilled to be taking part in this year's first European trade fair, which is particularly important for the industrial sector, and to be able to present live all the features for which our pumps stand out in the gear pump market reserved for the industrial sector. The latter is a sector that is experiencing a moment of great ferment from the point of view of the development of new solutions, for which the ELIKA family can be particularly attractive and respond to the growing technological needs of the European and global market.*
