

PRESS RELEASE

MARZOCCHI POMPE TO TAKE PART IN THE AUTOMOTIVE CTI SYMPOSIUM IN BERLIN TO PROMOTE TWO NEW MOTOR PUMPS DEDICATED TO ELECTRIFICATION PROJECTS

Bologna, 5 December 2022 – **Marzocchi Pompe S.p.A.** (EGM:MARP), a leading company in the design, production and marketing of high-performance gear pumps and motors, announces that it will take part in the **Automotive CTI Symposium**, organised by the Car Training Institute of Duesseldorf, **from 5 to 7 December 2022 at the Estrel Hotel in Berlin.**

The event aims to bring together the most important players in the world of automotive supplies - OEMs, TIER1 and SYSTEM INTEGRATOR - and is divided into an exhibition part, where companies can showcase their solutions by exhibiting their products, and a second part of conferences dedicated to the present and to the development of this relentlessly evolving sector.

At **Marzocchi Pompe's F4 stand**, potential buyers and partners will have the opportunity to meet with the company's tech-sales team, and in particular to review the latest solutions in the Elika range developed specifically for the heavy automotive sector, especially for bus and truck power steering, as well as the rest of the micropumps dedicated to the automotive world.

New to the Marzocchi stand this year will be two motor pumps dedicated to **electrification** projects. One will feature an electric motor from a European partner coupled with an Elika pump, while the other will feature an E05 micropump coupled with an electric motor from an Italian partner.

Gabriele Bonfiglioli, CEO of Marzocchi Pompe, commented: *"This event will give us the opportunity to illustrate once again live, to a large international audience, our extensive range of traditional micropumps and Elika pumps dedicated to the automotive market, and to discuss new motor pump prototypes. At the same time we will have the opportunity, with our technical and R&D department, to see closely how the European automotive world is evolving, which has for several years now been strongly looking for European quality products such as those Marzocchi Pompe, thanks to its distinctive made-in-Italy feature, can offer"*.

Marzocchi Pompe S.p.A.

Marzocchi Pompe is a leading designer, manufacturer and marketer of high-performance gear pumps and motors, which find application in various fields: industrial, mobile and automotive. It closed 2021 with more than €40 million in sales revenue. Founded in 1949, it is controlled by the Marzocchi family, which holds the majority of shares and is represented in the company by Paolo Marzocchi, Chairman, and his son Carlo, Deputy Chairman. The shareholding structure also includes CEO Gabriele Bonfiglioli and four other managers. Production is carried out entirely in Italy at the two sites in Casalecchio di Reno (BO) and Zola Predosa (BO). Marzocchi Pompe is present in over 50 countries through an international distribution network
