

**PRESS RELEASE**

**MARZOCCHI POMPE ANNOUNCES THE STRATEGIC PURCHASE OF A NEW PLANT  
ADJACENT TO THE ONE CURRENTLY IN USE**

**THE MARZOCCHI POMPE INDUSTRIAL SITE CONTINUES TO EXPAND  
AND ZOLA PREDOSA**

*Bologna, 27th February 2024* - Marzocchi Pompe S.p.A. (EGM:MARP), a leading company in the design, production and marketing of high-performance gear pumps and motors, announces that it has taken another step in its strategic plan to enlarge its complex in Zola Predosa, finalising the purchase of **a new 2,500 square metres real estate, of which 1,000 covered**, located in Via Calari 9, adjacent to the one currently in use (located in via Grazia 2), **for € 1,050,000** and located in the same industrial complex where the company had acquired two other properties in October 2022 ([link](#) to press release) and July 2023 ([link](#) to press release).

The purchase of the new facility will provide Marzocchi Pompe with numerous advantages. First of all, from a logistic point of view, the new facility will allow **to gather in a single location all the components warehouse** that the company needs to produce its more than 20,000 active codes of finished product, making the supply operations of the production departments much more streamlined and efficient. Secondly, the renovation of this building, including an **extension of the existing photovoltaic system**, will also have a positive effect on the environmental impact, thus continuing the company's journey towards energy self-sufficiency.

Gabriele Bonfiglioli, CEO of Marzocchi Pompe, commented: *"The acquisition of the new building represents a further important step in our plan to unify the two production plants in Zola Predosa. With this operation we also wanted to give a concrete signal of how much we believe in the future growth of Marzocchi Pompe, an operation made, in particular, in a not very brilliant moment for the whole industrial sector"*.
