

PRESS RELEASE

MARZOCCHI POMPE AT "iVT EXPO" INTERNATIONAL EXHIBITION TO PROMOTE THE NEW SOLUTIONS OF THE ELIKA PUMP FAMILY FOR ELECTRIC AND HYBRID VEHICLES

Bologna, 20 September 2021 - Marzocchi Pompe S.p.A. (AIM:MARP), a leading company in the design, production and marketing of high-performance gear pumps and motors, announces that it will take part in the "iVT Expo", one of the most important international events in the field of componentry and the latest and next-generation technologies for industrial vehicles, off-highway vehicles, construction equipment and vehicle hybridisation, which will take place in virtual mode from tomorrow, 21 September, to Wednesday, 22 September.

During the "**Electric, Hybrid and Alternative Powertrain Solutions**" conference on the first day, Andrea Rimondi, North America Engineer Designer for Marzocchi Pompe, will present the various applications for electric and hybrid vehicles in a wide range of industries (e.g. construction, agriculture, off-highway vehicles) of the ELIKA pump, the low-noise, high-efficiency and low-pulsation family. In particular, it will be highlighted how its highly innovative features can increase efficiency and reduce costs when applied in electrified powertrain systems.

Gabriele Bonfiglioli, CEO of Marzocchi Pompe, commented: *"We are delighted to be taking part in one of the most important expos in our sector, where we have the opportunity to present for the first time the applications of the ELIKA pump in the field of electrification of industrial vehicles. This is a sector that is experiencing a moment of great ferment from the point of view of the development of new solutions, for which the ELIKA family, which has recently been enriched with the launch of the new FTP line, can be particularly attractive and respond to the growing technological needs of the market.*

I would like to remind you that ELIKA, developed in collaboration with the University of Bologna and covered by two patents, is the family on which we are focusing a lot because we believe it can be one of our main growth drivers for the coming years".

Marzocchi Pompe S.p.A.

Marzocchi Pompe is a leading company in the design, production and marketing of high performance gear pumps and motors, which are used in various fields: industrial, mobile and automotive. It closed 2020 with approximately 34 million euros in sales revenue. Founded in 1949, it is controlled by the Marzocchi family, which holds the majority of the shares and is present in the company with Paolo Marzocchi, President, and his son Carlo, in the Technical Area. The CEO Gabriele Bonfiglioli and four other managers are also part of the shareholding structure. The production is entirely made in Italy in the two sites of Casalecchio di Reno (BO) and Zola Predosa (BO). Marzocchi Pompe is present in over 50 countries through an international distribution network.
