

PRESS RELEASE

**MARZOCCHI POMPE AT THE INTERNATIONAL AUTOMOTIVE "CTI BERLIN SYMPOSIUM"
TO PROMOTE THE BRAND NEW ELIKA 1P PUMP**

Bologna, December 11th, 2019 - **Marzocchi Pompe S.p.A.** (AIM: MARP), a leading company in the design, production and marketing of high-performance gear pumps and motors, will be present at the Automotive CTI Symposium in Berlin, one of the most important events in Europe in the field of components for vehicles, to present in detail the brand new ELIKA 1P pump to the international operators of the sector.

ELIKA 1P is the latest addition to the ELIKA family, the low noise, high efficiency and low pulsations range of pumps developed by Marzocchi Pompe following a long phase of Research & Development which has led to the filing of various patents and trademarks.

The main feature of the new product is the ability to combine the advantages of ELIKA solutions such as low noise, high efficiency and low pulsations, with a design of reduced size and displacement which make it particularly suitable for applications in the Automotive sector.

Gabriele Bonfiglioli, CEO of Marzocchi Pompe, commented: "*We are happy to present ELIKA 1P during such an important event as the CTI Automotive Symposium. The Automotive market is looking for increasingly customized solutions and with ELIKA 1P we want to respond even better to the growing needs of users. I would like to underline that ELIKA is a range on which we are focusing a lot because we believe it can be one of our main drivers of growth for the oncoming years. In August 2019 we have completed the investment of the new ELIKA assembly department, at the beginning of 2020 a new gearing machine is scheduled to be launched which will allow us to increase the production capacity of the related gears*".
