

PRESS RELEASE

MARZOCCHI POMPE TAKES PART TO "NEXT GEMS CONFERENCE 2020, MILAN"

Bologna, 2 November 2020 - Marzocchi Pompe S.p.A. (AIM:MARP), a leading company in the design, production and marketing of high performance gear pumps and motors, will be present at the "Virtual Next Gems Conference 2020, Milan", scheduled for Tuesday 3 November 2020.

The event, organised by Virgilio IR, is dedicated to companies listed on the AIM Italia market with a capitalisation of less than € 50 million, to showcase the results achieved and future prospects to Italian and international institutional investors. At its first edition, the "Next Gems Conference 2020, Milan" will be entirely held in virtual mode, with remote meetings, one-to-one or in small groups.

On this occasion, the Management of Marzocchi Pompe will illustrate the business model, the industry macro trend and the Group's growth strategies.

Gabriele Bonfiglioli, CEO of Marzocchi Pompe commented: *"The Next Gems Conference 2020 will be an opportunity to illustrate to Italian and international institutional investors the sales trend in the second half of the year, which has partially recovered compared to the first part of the year, particularly in the automotive sector which, as has often happened in the past, is showing an improving tendency outpacing the GDP trend, probably due to the willingness to prefer private to public transport as an anti-contagion prevention activity.*

During the meetings we will also have the opportunity to present the recent establishment of our JV in China, a step that we believe is fundamental for the development of the core business of Marzocchi Pompe.

We will also illustrate the latest agreements made with leading groups in the heavy automotive sector worldwide, as part of an extensive innovative plan for the electrification of their range, for the supply of Elika pumps, therefore belonging to our family of low noise, high efficiency and low pulsation pumps, which represent a model of high performance in the sector. These agreements represent an important signal of the new challenges that Marzocchi Pompe can take up in the electric-powered vehicle market, which despite the difficult macroeconomic scenario caused by the pandemic, is currently experiencing a phase of strong expansion and where we can express all our value, both in terms of R&D first and then in terms of production processes".

The presentation for investors of Marzocchi Pompe ("H1 2020 Results Presentation") is available in the "Investor Relations" section of the Company's website www.marzocchipompe.com.

Marzocchi Pompe S.p.A.

Marzocchi Pompe is a leading company in the design, production and marketing of high-performance gear pumps and motors, which are used in various fields: industrial, mobile and automotive. 2019 closed with sales of approximately € 40 million. Founded in 1949, it is controlled by the Marzocchi family, which holds the majority of the shares and is present in the company with Paolo Marzocchi, President, and his son Carlo, in the Technical Area. The shareholder also includes CEO Gabriele Bonfiglioli and four other managers. The production is carried out entirely in Italy in the two locations of Casalecchio di Reno (BO) and Zola Predosa (BO). Marzocchi Pompe is present in over 50 countries through an international distribution network.
